TRIPLE EFFECT

3

Moisturizing in the third dimension

The effective alternative to wrinkle injections

The supply of hyaluronic acid to the skin in various molecular structures is an essential component of the être belle **hyaluronic³** skincare range.

Hyaluronic acid, a natural component of the skin, plays an important role in moisture regulation, skin structure and elasticity. The molecular structure of hyaluronic acids varies in size and weight, which influences their effectiveness and depth of penetration into the skin.

The combination of different molecular structures of hyaluronic acid in **hyaluronic³** series enables a comprehensive supply of moisture and nutrients to the skin at different levels. As a result, the skin is optimally hydrated, strengthened and protected, leading to a healthy and radiant complexion.

BENEFITS

- **hyaluronic³** TRIPLE EFFECT supports - smoothes - firms
- Builds up a balanced moisture level in the epidermis and dermis
- Improves cell function
- Immediate and long-term lifting effect
- Face-lifting without any surgical intervention

hyaluronic³ Cleansing Mousse

Delicately foaming, moisturizing cleansing foam. The creamy foam cleanses the skin gently and thoroughly. The combination of hyaluronic acid and betaine protects the skin from dehydration and irritation, while lactic acid promotes both deep pore cleansing and the skin's natural moisture supply. The complexion appears fresh and rosy.

Indication

For all skin types

Especially recommended for dry, flaky skin conditions

Active Ingredients

- Hyaluronic acid (low molecular weight) - deep moisturizing of the epidermis
- Betaine - moisture-balancing effect
- Lactic acid - gentle keratolytic and moisture-regulating effect

Application

Mornings and evenings, lather onto damp skin, briefly massage in and rinse off with plenty of water. Follow with *hyaluronic³ Tonic Mousse*.

Benefits

- Gentle and mild cleansing for all skin types.
- Particularly pleasant, creamy consistency
- Slightly invigorating fragrance
- No feeling of tightness on the skin

hyaluronic³ Glacier Mousse

The beauty powder made from hyaluronic acid and algae extracts transforms into the ultimate refreshing mousse when water is added - enriched with minerals and trace elements, it provides intensive moisture. Sea buckthorn and rosemary extracts are excellent anti-oxidants and successful free radical scavengers. Their activating effect supports the cell regeneration and vital radiance of all skin types.

The feather-light, oil-free mousse can be used both as a plumping moisturizing mask and as a base for a bioenergetic massage.

Indication

For all skin types

Active Ingredients

- Hyaluronic acid - reduction of TEWL, moisturizing of the dermis
- Sargassum and Durvillaea algae (freeze-dried) - moisture-binding, remineralizing, stimulating
- Sea buckthorn - excellent free radical scavenger, active against harmful environmental influences, strengthens the skin's own defenses, stimulates collagen and elastin synthesis
- Rosemary extract - slightly antibacterial, promotes skin metabolism, powerful anti-oxidant

Application

Pour 35 ml of water into a small bowl and sprinkle in the Glacier Mousse evenly until the entire surface of the bowl is covered. Leave to soak for a few seconds and mix with a brush to form a homogeneous gel. Apply to the face, neck and décolleté with the brush.

Perform a bioenergetic massage.

Apply the remaining residue as a mask. Remove moist after 15 minutes. Tone the skin and complete the beauty ritual or treatment.

Benefits

- Intensive moisturizing
- Strengthens the skin's natural protective functions
- Cooling, refreshing, invigorating
- Free from preservatives (based on the special manufacturing process)
