

TIME CONTROL SYSTEM

Effectively Combating The Signs Of Time

Understanding skin aging: Coenzyme Q10 and peptides for youthful, active skin

As we age, cellular energy decreases, leading to lines, wrinkles, and a loss of elasticity and tone. Coenzyme Q10 plays an essential role in energizing cells and has antioxidant properties that protect against harmful free radicals. Peptides, in turn, stimulate collagen production and improve skin structure by supporting regeneration. The être belle **TIME CONTROL CONCEPT** skincare range combines these key active ingredients with other anti-ageing ingredients to create an effective product concept for the discerning customer.

BENEFITS

- More cell energy - reactivated cell functions
- Improved cell metabolism
- Strengthened regenerative capacity
- Visible and immediate lifting effect
- Tightening of sagging tissue after just a few applications
- Reduction in wrinkle depth of up to 56%
- Supplement to wrinkle injections

SUPPLY

- 3510 Time Control Q10 Phytocomplex Serum
- 3534 Day Expert-Marine Filler Serum
- 3535 Night Expert-Marine Renewal Serum

Q10 Phytocomplex Serum

Q10 Phytocomplex Serum combines state-of-the-art peptide technology with selected natural ingredients. The specially encapsulated coenzyme Q10 provides more cell energy and stimulates cell metabolism. Biotin and phytohormones extracted from red clover also activate cell metabolism, support regeneration and work with vitamin E to fight free radicals. Peptides stimulate the skin's own collagen synthesis. Tissue elasticity and resilience are increased and lines and wrinkles are reduced. The complexion appears fresher and more vital.

Indication

For demanding skin

Active Ingredients

- Coenzyme Q10 (encapsulated) - cell energy, improved cell metabolism
- Red clover extract (phytohormones) - smoothing, regeneration support
- SYN®-COLL - tri-peptide to activate the skin's own collagen synthesis
- Biotin - cell regeneration, cell structure, metabolism
- Vitamin E - anti-oxidative, protective

Application

Apply in the morning and evening to cleansed and toned skin on the face, neck and décolleté and spread gently. Then apply the *Q10 Phytocomplex Cream*.

Benefits

- Counteracts premature skin ageing
- Improves skin elasticity
- Reduction of lines and wrinkles by up to 56 %

Anti-Aging Booster

3534

Day Expert Marine Filler Serum

Firming day serum and active shield against environmental stressors. The innovative active ingredient HyaluFiller X50® stimulates collagen-elastin synthesis and the skin's own production of hyaluronic acid and reduces its enzymatic breakdown. An algae and seawater complex protects against premature skin aging caused by negative environmental influences. The appearance of the skin is permanently improved and the depth of wrinkles is reduced. Reveals youthful radiance and vitality.

Indication

For demanding skin with pronounced wrinkles

Active Ingredients

- Hyaluronic acid (long-chain + short-chain) - reduction of TEWL, deep moisturization of the epidermis
- HyaluFiller X50® - hyaluronic acid synthesis, reduction of enzymatic hyaluronic acid degradation, collagen-elastin synthesis, strengthening of facial contours
- Cityguard - protection against environmental stress, cell energy, stimulation of collagen and elastin synthesis
- Seafill - immediate and lasting replenishment, stimulation of collagen, elastin and hyaluronic acid synthesis

Application

Apply to cleansed and toned skin in the morning and work in gently. Follow with the recommended day care.

Benefits

- Boosts the skin's own production of collagen, elastin and hyaluronic acid
- Increased elasticity and resilience of the connective tissue
- Minimizes the depth of wrinkles
- Protection against negative environmental influences during the day

elasticity – plumpness

3535

Night Expert Renewal Serum

Strengthening night serum and intensive regeneration during sleep. Thanks to the combination of carefully selected active ingredients, the serum supports the skin's own repair mechanisms, reduces irritation and strengthens the skin's protective barrier. Peptides and remineralizing moonstone extract stimulate collagen-elastin synthesis and strengthen the connection between the epidermis and dermis. Lines and wrinkles are reduced and the skin is given more structure, resilience and youthful charisma.

Indication

For demanding skin with pronounced wrinkles

Active Ingredients

- Epidermist - strengthens the barrier function, reduces irritation
- ChroNoline™ - strengthens the D-E junction zone, strengthens tissue
- Moonstone extract - stimulates collagen-elastin synthesis, remineralizing
- Tiger grass - promotes regeneration, strengthening, anti-inflammatory

Application

Apply to cleansed and toned skin in the evening and work in gently. Follow with the recommended night care.

Benefits

- Strengthens the skin's barrier function
- Strengthens the interlocking of epidermis and dermis
- Provides strengthened facial contours
- Stimulates cell regeneration during the night's rest

Eye Contour Cream

Smoothing, contouring eye care combines powerful NMFs with innovative peptide technology. The delicate eye area is intensively moisturized and hydration levels are sustainably improved. The powerful combination of peptides reduces lines and wrinkles by relaxing the mimic muscles and stimulating collagen and elastin synthesis. The delicate skin structure around the eyes is strengthened and firmed, and elasticity is improved.

Indication

For the demanding eye area with pronounced wrinkles and lipid-deficient eye area

Active Ingredients

- SYN®-COLL - Tri-peptide to activate the skin's own collagen synthesis
- Argireline® - alternative to Botox, muscle relaxant, improved skin elasticity
- Hydroviton® 24 - synergetic NMF combination, immediate and 24-hour moisturization of the skin

Application

Apply morning and evening to the eye area including the upper eyelid after cleansing and toning.

Benefits

- Reduction of lines and wrinkles
- Noticeable tightening of tissue
- Lasting regulation of the moisture level

Peptide & Black Pearl Hydrogel Eye Pads

Intensive eye care pads to combat the signs of tiredness. The pads with pearl extracts, seaweed and peptides combat the most common signs of skin ageing. They reduce puffiness and dark circles under the eyes, provide the skin with optimal moisture and ensure a visibly rejuvenated and revitalized radiance.

Indication

For any eye area

Active Ingredients

- Peptide combination - firming, smoothing, structuring
- Black pearl extract - activating, remineralizing, more radiance
- Algae extracts - gentle detox effects, revitalizing, moisturizing

Application

Apply to cleansed and toned skin under the eyes. After leaving on for 10 - 15 minutes, remove and apply the appropriate eye care product.

Benefits

- Cooling and relieving for swollen eye areas
- Stimulates microcirculation in the eye area
- Reduction of dark circles
- Smoothes fine lines and wrinkles
- Revitalizes any tired and stressed eye area

Q10 Phytocomplex Creme

Q10 Phytocomplex Cream is a skin care product for demanding skin. Coenzyme Q10 provides more cell energy and stimulates cell metabolism. Phytohormones extracted from soy support the formation of new cells, delay collagen degradation and, in combination with SYN®-COLL, stimulate the skin's own collagen synthesis. Hyaluronic acid and carefully selected, high-quality plant oils replenish the epidermis's moisture reserves. The skin becomes firmer, more elastic and more vital.

Indication

For demanding skin

Active Ingredients

- Coenzyme Q10 - cell energy, improved cell metabolism
- Soy extract (phytohormones) - smoothing, regeneration support
- SYN®-COLL - tri-peptide to activate the skin's own collagen synthesis
- Hyaluronic acid (long-chain) - reduction of TEWL, moisturization of the epidermis

Application

Apply in the morning and/or evening to cleansed, toned skin on the face, neck and décolleté. To intensify the effect, an ampoule and/or serum suitable for the skin can be applied beforehand.

Benefits

- Rejuvenates and regenerates the skin by stimulating the connective tissue
- Reduction of lines and wrinkles by up to 56%
- The complement to wrinkle injections

stimulating – regenerating

3518

Retinol Peptide Repair 0.3 Night Cream

Skin renewal during sleep. Thanks to its keratolytic effect, pure retinol creates the best conditions for accelerated skin regeneration. In combination with biotin, it also supports optimized cell regeneration. A peptide complex stimulates the formation of the skin's own collagen and thus plumps up lines and wrinkles from the inside out. Long-chain hyaluronic acid forms a protective moisturizing film on the skin, reduces increased moisture loss and thus promotes a balanced moisture level in the skin.

Indication

For demanding skin with pronounced wrinkles.
For dry, chapped, flaky skin.

Active Ingredients

- Retinol - keratolytic effect, smoothing, skin renewal
- Matrixyl 3000 - smoothing, plumping, structuring
- Biotin - cell regeneration, cell quality, skin structure
- Hyaluronic acid (long-chain) - reduction of TEWL, moisturization of the epidermis

Application

Apply in the evening to cleansed and toned face, neck and décolleté. Avoid the eye area.
Initially, use *Retinol Peptide Repair 0.3 Night Cream* 2 to 3 times per week. The frequency may be increased with caution. Apply *Q10 Phytocomplex Cream* in the evenings when *Retinol Peptide Repair 0.3 Night Cream* is not being used.
While using *Retinol Peptide Repair 0.3 Night Cream*, avoid exfoliation and the use of fruit acid products.
A sunscreen should be used during the day.

Benefits

- Reduction of wrinkle depth
- Plumping up the skin from the inside
- Improvement of tissue structures down to the dermis
- Improving the vitality, resistance, resilience and elasticity of the skin

firming – revitalizing

3528

Medical Beauty Anti-Aging Lift Capsules

High-quality and visibly smoothing intensive lift capsules. The active ingredient Argireline® has a muscle-relaxing effect - similar to Botox - and acts like a mini face-lift. In particular, wrinkles caused by tension can now be visibly reduced and the formation of further expression lines can be prevented. The skin appears smoother, firmer and regains more tone and elasticity.

Indication

For demanding skin with pronounced expression lines

Active Ingredients

- Argireline® – alternative to Botox, muscle relaxant, improved skin elasticity

Application

In the morning and evening, open a care capsule by twisting it and first work it locally into the wrinkles caused by facial expressions. Then apply the remaining amount to the entire face. Use in combination with day and night care.

Use as an intensive treatment for at least four weeks.

To stabilize the lifting effect in the long term, it is recommended to continue using 2-3 care capsules per week.

For external use only!

Benefits

- Relaxation of the mimic muscles
- Visible reduction of lines and wrinkles caused by facial expressions
- Improvement of the skin's relief
- More elasticity and resilience
