## Vegan

## Vegan Skin Care Products: Sustainable Beauty Without Compromise

### How modern cosmetics combine ethical values and high standards

A vegan lifestyle is much more than just a diet - it is a conscious decision for respect, responsibility and mindfulness towards the environment, animals and your own body. Those who choose a vegan lifestyle not only avoid animal products on their plate, but also ensure that all areas of life are free from animal suffering and animal ingredients. This involves a deep understanding of sustainability, ethical values and the pursuit of a mindful approach to the world.

These values are also reflected in the choice of skin care products. Vegan cosmetics stand for purity, transparency and the promise of being produced without animal ingredients and without animal testing. For a skincare product to be declared vegan, it must meet strict criteria. First and foremost, this means that no animal ingredients or animal by-products are used. These include, for example, bean wax, lanolin, carmine or animal collagen. Another important criterion is the absence of animal testing, both in the development and manufacture of the product.

The être belle skin care series **Collagen Vegan** offers people with a vegan lifestyle the opportunity to consistently put their convictions into practice - from the kitchen to the bathroom. Because real self-care begins where mindfulness of one's own needs merges with respect for nature. Vegan skin care products are not only an expression of ethics, but also a statement for a modern lifestyle that combines sustainability and well-being.

### Bio-technology and innovative active ingredients in vegan skincare

Modern vegan skin care products are increasingly benefiting from advances in biotechnology that make it possible to develop highly effective and sustainable ingredients. A particular focus here is on active ingredients such as peptides, which are known for their regenerative and skin-caring properties. Peptides are amino acid chains that strengthen the skin's structure, support the natural renewal process and help to reduce wrinkles and improve skin elasticity.

Biotechnological processes allow these active ingredients to be obtained without the use of animal sources, making them ideal for vegan skin care. At the same time, the ecological footprint is minimized as resource-saving processes reduce the environmental impact. Biotechnologically produced active ingredients in vegan skin care therefore combine maximum effectiveness with ethical standards - for skin care that does justice to both beauty and the environment.

The innovative être belle **Collagen Vegan** skin care series with plant-based collagen and peptides offers an innovative solution for sustainable, ethical and effective skin care - in line with the needs of modern consumers.

#### BENEFITS

- 100% vegan skin care products for healthy and rejuvenated skin
- Strengthens the skin structure
- Anti-aging effect
- Improved skin barrier
- Suitable for all skin types
- Sustainability

### Sustainable packaging with refill system: Less waste, more environmental love

Sustainable products made from natural, animal-free ingredients conserve resources and promote fair production. But real responsibility does not end with the choice of ingredients:

Sustainable packaging rounds off conscious consumption.

**Collagen Vegan** from être belle reinterprets the topic of sustainable Packaging and goes one step further by using a refill system: Instead of disposable products, refills focus on reusability. High quality, containers are easy to refill, while refill packs minimize waste and conserve resources. This concept combines design, functionality and environmental awareness - a small step that has a big impact. Opt for refills and contribute to a cleaner, more sustainable future.

## Collagen Vegan Cleansing Milk

This gentle cleansing milk thoroughly removes makeup, sebum, and environmental residues from the skin without drying it out.

While vegan collagen strengthens the skin's structure and leaves it feeling smooth and nourished, licorice root extract soothes sensitive skin and reduces redness. Iris root extract moisturizes and supports natural regeneration. The delicate texture cleanses particularly gently and leaves the skin feeling silky and refreshed. For skin that appears clean, balanced, and wonderfully supple – day after day.

### Indication

For all skin types

For anyone who values a vegan skincare approach

### Active Ingredients

- ALGAKTIV® Collage – Promotes the skin's own collagen synthesis, elasticity, and firmness, improving moisture balance
- Dipotassium Glycyrrhizate (licorice root) – Soothing, antihistamine, anti-inflammatory, strengthening
- Iris root extract (German iris) – Moisturizing, balancing, regenerating, smoothing
- Allantoin – Soothes irritation, mildly antiseptic, leaves skin feeling supple

### Application

Apply a small amount to the face, neck, and décolleté in the morning and evening, massage in gently, and remove with lukewarm water. For optimal results, follow with the *Collagen Vegan Peptide Moisturizing Lotion*.

### Benefits

- Gentle cleansing without drying out!
- Removes makeup and impurities particularly mildly.
- Leaves the skin clean, refreshed, and receptive.
- A silky-soft start to an optimal skincare ritual.

## Collagen Vegan Peptide Moisturising Lotion

This innovative lotion combines the clarifying lightness of a tonic with the nourishing effect of a moisturising essence. Vegan collagen strengthens the skin structure, improves elasticity and ensures a supple, firm skin feeling. High-quality peptides support natural regeneration and promote a vital, fresh complexion. Propanediol transports moisture deep into the skin, while niacinamide refines the complexion, strengthens the skin barrier and promotes an even, healthy complexion. The gentle formula revitalises the skin and prepares it optimally for serums, creams and other care products.

### Indication

For all skin types

For anyone who values a vegan skincare approach

### Active Ingredients

- ALGAKTIV® Collage – Promotes the skin's own collagen synthesis, elasticity and firmness, improves moisture balance
- Skinarch™ – Activates cell regeneration, promotes collagen formation, soft-focus effect on fine lines
- Niacinamide/Vitamin B3 – Strengthens the barrier function, improves moisture retention, refines the complexion and helps to achieve a more balanced skin tone
- Propanediol – Moisturiser and carrier for other active ingredients

### Application

In the morning and evening after cleansing, apply a few drops of *Collagen Vegan Peptide Moisturising Lotion* to a cotton pad or directly to the palms of your hands, apply to the face, neck and décolleté and gently massage in. Then complete your beauty ritual with a serum tailored to your needs, an eye care product and the recommended final care product for your skin type.

### Benefits

- **Collagen Vegan Peptide Moisturising Lotion** – More than just a facial toner!
- An indispensable first step in your skincare routine!
- The perfect preparation for all subsequent skincare products.
- Immediately noticeable freshness that brings out your natural beauty.
- For clarified and refined pores, a smooth, even skin feel and a visibly more vital complexion.

## Collagen Vegan Peptide Day & Night Serum

This serum is the most effective way to strengthen your skin. It does this through the power of amino acids extracted from marine algae, specifically *Haematococcus pluvialis*. These are similar in composition to human collagen, ensuring a smooth, firm, and strengthened complexion. Innovative peptides stimulate the skin's natural collagen production, while low-molecular hyaluronic acid has an intensive moisturizing effect in the deeper epidermal cell levels.

The serum's transformative effect improves skin texture, minimizes fine lines and wrinkles, and reveals radiant, youthful-looking skin.

### Indication

For demanding skin with lines, wrinkles and loss of firmness as well as their prevention  
For everyone for whom a vegan skin care concept is important

### Active Ingredients

- ALGAKTIV® Collage – Promotes the skin's own collagen synthesis, elasticity and firmness, improves the moisture balance
- SYN®-COLL – Tri-peptide to activate the skin's own collagen synthesis
- SYN®-AKE – Botox-like effect, muscle relaxant, smoothing effect
- Hyaluronic acid (low-molecular, medium and very short-chain) – Deep moisturizing
- Triactigen – Stimulation of cell metabolism, soothing, moisture-retaining

### Application

Celebrate in the morning and evening on the cleansed and toned skin of the face, neck and décolleté and massage in gently. Finally, apply the *Collagen Vegan Peptide Eye Cream* and *Collagen Vegan Peptide Day or Night Cream*.

### Benefits

- Stimulation of natural collagen production
- Relaxes the mimic muscles
- Promotes skin firmness and visibly smoothes the skin
- Regulates the moisture balance at all cell levels

**firming – tightening – smoothing**

7203

## Collagen Vegan Peptide Eye Cream

This remodeling eye cream is the ultimate beauty elixir for the delicate skin around the eyes. The secret is Meiview™, a revolutionary active ingredient that refines the eye contour, stimulates collagen production, and strengthens and firms the skin around the eyes. Targeted application improves microcirculation, reduces dark circles under the eyes, and visibly brightens the skin. Shea butter, grape seed oil, and almond oil provide additional care for this sensitive area of the face. High-molecular hyaluronic acid reduces TEWL and pampers the skin with plenty of moisture.

### Indication

For the demanding eye area with lines and wrinkles and dark circles  
For everyone for whom a vegan skin care concept is important

### Active Ingredients

- ALGAKTIV® Collage – Promotes the skin's own collagen synthesis, elasticity and firmness, improves the moisture balance
- Meiview™ – Recontouring, firming, strengthening and brightening for dark circles
- SYN®-EYE – Structure-improving, firming, tightening
- ADIPOLESS – Reduces dark circles, smoothing effects
- Hyaluronic acid (high molecular weight) – Reduction of TEWL, smoothing of the skin relief

### Application

Apply to the eye area, including the upper eyelid, in the morning and evening after cleansing and toning. Complete the beauty ritual with the appropriate skin care.

### Benefits

- Promotes microcirculation in the eye area
- Prevents and reduces dark circles and bags under the eyes.
- Lifting of sagging eyelids
- Moisturizes and softens every eye area

**contouring – strengthening – protecting**

7201

## Collagen Vegan Peptide Day Cream

This revitalizing day cream is the perfect solution for supporting the skin in its protective function against all environmental influences and everyday stressors. It is the ideal complement to the *Collagen Vegan Peptide Night Cream*. Enriched with high-quality amino acids and collagen peptides that are very similar to human collagen and in combination with innovative biotechnological peptide compounds, it effectively supports the skin's natural collagen production and increases skin density. This combination of sustainable moisturizing ingredients and highly effective antioxidants will protect your skin against negative environmental influences.

### Indication

For demanding skin with lines and wrinkles, loss of volume and elasticity as well as for prevention  
For everyone for whom a vegan skin care concept is important

### Active Ingredients

- ALGAKTIV® Collage – Promotes the skin's own collagen synthesis, elasticity and firmness, improves the moisture balance
- REPLEXIUM™ – Peptide combination, increases skin density, wrinkle-reducing
- Hydroviton® 24 – Long-term moisturizing effect
- Squalane – Moisturizing, smoothing, suppleness
- Jojoba oil – Moisturizing, barrier-strengthening, protective

### Application

Celebrate in the morning on the cleansed and toned skin of the face, neck and décolleté and spread gently. For a more intensive effect, apply the *Collagen Vegan Peptide Day & Night Serum* beforehand.

### Benefits

- Restores structure, elasticity, firmness and volume to the skin
- Significant visible refinement of the skin's texture
- Lasting increase in the skin's moisture level
- Intensive anti-oxidative effects protect against environmental skin damage

**smoothing – revitalizing – shielding**

7202

## Collagen Vegan Peptide Night Cream

The restorative night cream is specially formulated to support the skin's natural regeneration during sleep. It is the perfect complement to *Collagen Vegan Peptide Day Cream*. The night cream is also enriched with the powerful symbiosis of vegan collagen and amino acids that mimic human collagen, as well as innovative peptide combinations. The skin's structure is strengthened and fine lines and wrinkles are reduced. Rich ingredients such as almond oil and shea butter deeply nourish the skin, leaving it soft and supple.

### Indication

For the demanding eye area with lines, wrinkles and loss of firmness as well as for their prevention  
For everyone for whom a vegan skin care concept is important

### Active Ingredients

- ALGAKTIV® Collage - Promotes the skin's own collagen synthesis, elasticity and firmness, improves the moisture balance
- SYN®-COLL - Tri-peptide to activate the skin's own collagen synthesis
- SYN®-AKE - Botox-like effect, muscle relaxant, smoothing effect
- Panthenol - Soothing, promotes wound healing, stimulates (cell metabolism)

### Application

Celebrate in the evening on cleansed and toned skin of the face, neck and décolleté and spread gently. The *Collagen Vegan Peptide Day & Night Serum* can be applied beforehand to intensify the effect.

### Benefits

- Counteracts the natural decline in collagen synthesis
- Significant stimulation of the skin's own collagen production
- Tightens, sculpted appearance and refines the appearance of pores
- Relaxes the facial muscles and reduces expression lines and wrinkles

Retail size

Art.-No. 7202  
2 x 50 ml

**regenerating – firming – structuring**

7204

## Collagen Vegan Peptide Cream-Mask

This exceptionally pampering cream mask combines cutting-edge ingredients to help make skin look firmer and smoother. It contains vegan collagen, which is similar in structure to our skin's natural collagen and is derived from the marine algae *Haematococcus pluvialis*. The mask activates the skin's own collagen synthesis, which means that the skin retains more moisture and appears plumper and younger. Additional peptides support skin regeneration and target deep wrinkles on the forehead, around the eyes and around the mouth.

### Indication

For the demanding skin with lines, wrinkles and loss of volume and firmness  
For everyone for whom a vegan skin care concept is important

### Active Ingredients

- ALGAKTIV® Collage - Promotes the skin's own collagen synthesis, elasticity and firmness, improves the moisture balance
- REPLEXIUM™ - Peptide combination, increases skin density, wrinkle-reducing, smoothing
- Aloe vera - Moisturizing, remineralizing, soothing, regenerating

### Application

Apply opaque to cleansed and toned skin and relax. After the application time of approx. 15 - 20 minutes, any excess can be massaged in.

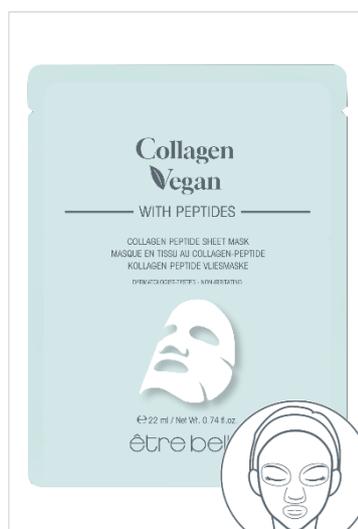

Application 2-3 x / week and according to skin needs is recommended.

### Benefits

- Intensive anti-oxidative effects delay the natural skin aging process
- Increases the skin's ability to bind moisture at all cellular levels
- Improves dermal skin density
- Reduction of deep wrinkles on the forehead, around the eyes and nasolabial folds
- Significant visible refinement of the skin's relief

Retail size	Art.-No. 7204 2 x 50 ml
Professional size	Art.-No. 7204-04 200 ml

**regenerating – contouring – tightening**

7205

## Collagen Vegan Peptide Sheet Mask

The fleece mask instantly provides the skin with noticeable moisture and vitality. Vegan collagen improves the skin structure and ensures a smooth, plump skin feeling. High-quality peptides reduce fine lines and promote the skin's own collagen synthesis. Arginine supports skin regeneration and elasticity, while betaine balances moisture levels and protects the skin barrier. Red algae extract provides antioxidant protection and strengthens the fine capillary system. Complemented by soothing ingredients such as panthenol and allantoin, the skin is noticeably refreshed and visibly revitalised.

### Indication

For demanding skin with lines, wrinkles and loss of skin density and firmness  
For anyone who values a vegan skincare concept

### Active Ingredients

- ALGAKTIV® Collage – Promotes the skin's own collagen synthesis, elasticity and firmness, improves moisture balance
- Matrixyl® 3000 – Cell activity, improved skin density and volume, smoothing
- Arginin – Promotes cell supply, boosts regeneration processes, stabilises pH value
- Chondrus Crispus (Red algae extract) – Soothing, anti-inflammatory, strengthens the barrier function and capillaries

### Application

Open the sachet at the mark, remove the mask and unfold it. Place the mask on your face, pull it tight and press it down. Leave it on for 15-20 minutes. Remove the mask and massage in any remaining active ingredients.

### Benefits

- Revitalises the skin and leaves it feeling refreshed and radiant.
- Provides deep nourishment and protects against dryness.
- Supports the skin's natural renewal process and strengthens its resistance.
- Immediately visible smoothness and youthful radiance.

## TREATMENT CONCEPT

*And if we travel the whole world to find beauty:  
We must carry it within us. otherwise we will not find it.*

– Ralph Waldo Emerson –

\* May 25, 1803 in Boston, Massachusetts; † April, 27 1882 in Concord, Massachusetts, American philosopher and writer

Collagen is the scaffolding of our skin – it gives it firmness, elasticity, and a plump, smooth structure. But over the years, natural collagen production decreases. The skin loses its elasticity, the first wrinkles appear, and the contours appear less defined. Environmental factors such as UV rays and stress further accelerate this process.

This is where *être belle Collagen Vegan Treatments* come in: they provide valuable collagen building blocks – innovative and vegan – that strengthen and plump the skin from within. In combination with highly effective peptides, they reconstruct the skin, give it new elasticity, reduce fine lines, and leave your complexion looking youthful and radiant. Feel how your skin gains firmness, feels tighter and more supple – like after a gentle lift that emphasizes your natural beauty.

Treat yourself to the power of the symbiosis of vegan collagen with innovative peptides and experience skin that is visibly regenerated, firmer, and full of vitality. A touch of youthfulness that you can see and feel!

### Collagen Vegan Tightening & Rejuvenating Treatment

Pamper your skin with the *Collagen-Elastin Ampoule* and the rich cream mask based on a highly effective combination of vegan collagen and state-of-the-art peptides. The revitalizing *être belle YouthQi Regeneration Massage* relaxes your facial muscles, pleasantly promotes blood circulation, and enhances the regenerating effect of the mask. The innovative Collagen Vegan final skin care rounds off this treatment. For a radiant, plump complexion and a youthful glow.

### Collagen Vegan Touch-up & Radiance Treatment

Experience an exhilarating revitalization of your skin with this treatment—triggered by the exceptionally effective combination of the *être belle Collagen-Elastin Ampoule* with the soothing *être belle Collagen Vegan Peptide Sheet Mask*. The *être belle YouthQi Regeneration Massage* provides invigorating stimulation and firming for your skin. Let your skin glow – refreshed, revitalized, and surprised with a silky-smooth, youthful aura.

## THE MASSAGE

## YouthQi Rejuvenation Massage

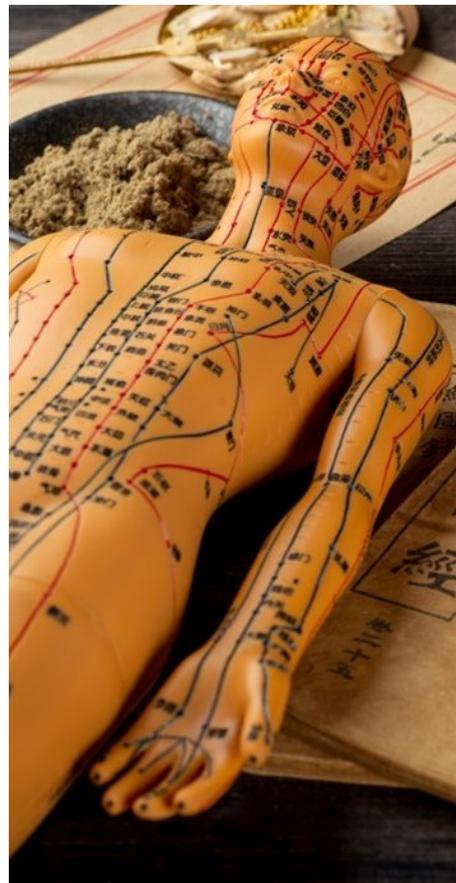

Experience the soothing power of the Far Eastern shiatsu technique with this unique facial massage. Drawing inspiration from traditional Japanese healing arts, this gentle pressure-point massage promotes energy flow (Qi) and harmonizes the body and mind. Pressure applied to specific points along the meridians releases tension, stimulates blood circulation, and gives the skin a youthful glow.

Shiatsu is traditionally believed to have a deeply relaxing and balancing effect. The gentle rhythm of the massage calms the nervous system, allowing stress and inner tension to give way to a deep sense of serenity. Your skin will be able to regenerate, swelling will subside, and your face will appear fresher and more vibrant.

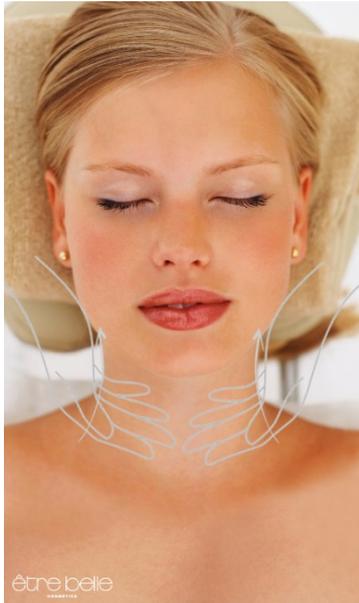

The *être belle YouthQi Rejuvenation Massage* is more than just a treatment; it's a mindful journey to inner balance and natural beauty. Allow yourself a moment of silence and experience the sensation of well-being radiating from within.

### Benefits of Massage

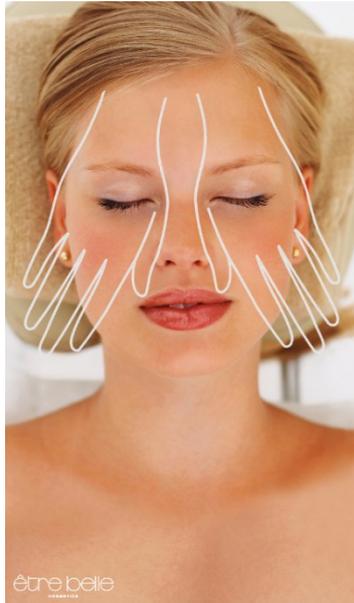

- ❖ Increases **blood circulation** → radiant and fresh appearance
- ❖ Cleanses the **lymphatic system** → toxins are flushed out, water retention in the face is drained → can help against bags under the eyes and dark circles
- ❖ **Relaxes the muscles** in the face → helps against expression lines
- ❖ Stimulates **collagen and elastin production** → wrinkle reduction
- ❖ Releases **energy blockages** → restores the flow of chi/prana → noticeable and visible in the face
- ❖ Can be used to combat headaches, stress, **tired eyes**, and colds
- ❖ **Self-healing powers** can be activated

## YouthQi Rejuvenation Massage

Getting in touch –  
Gently stroke the back of the neck from shoulders to hairline.  
Repeat 3 times.

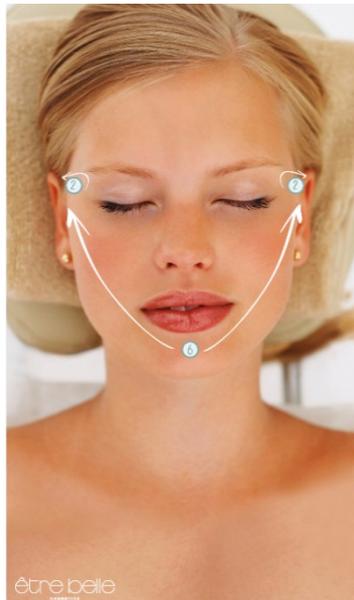

Welcome –  
Both hands are placed over the eyes with the palms facing down.

Activate pressure point 1 with both index fingers.  
Stroke across the eyebrows to point 2.  
Circle forward with your index and middle fingers.

Activate pressure points 3–5 with your index, middle, and ring fingers.  
Stroke toward the temples, activate point 2.

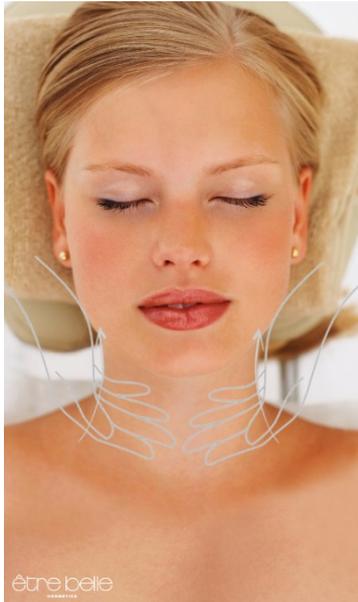

Activate pressure point 6 with both thumbs.  
Stroke point 2 toward the temples with your thumb pads.  
Circle toward the hairline with your index and middle fingers.

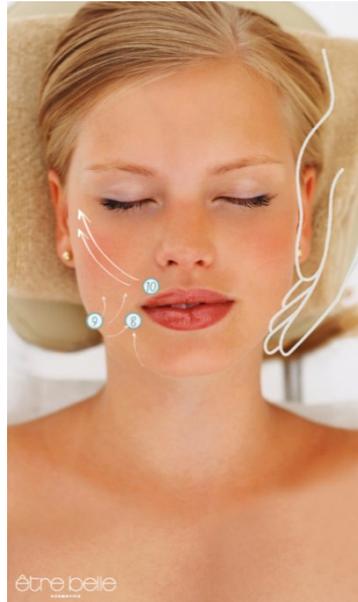

Activate pressure point 7 with both index fingers.  
Stroke towards the temples, point 2, with the index and middle fingers.  
Circle towards the hairline with the index and middle fingers.

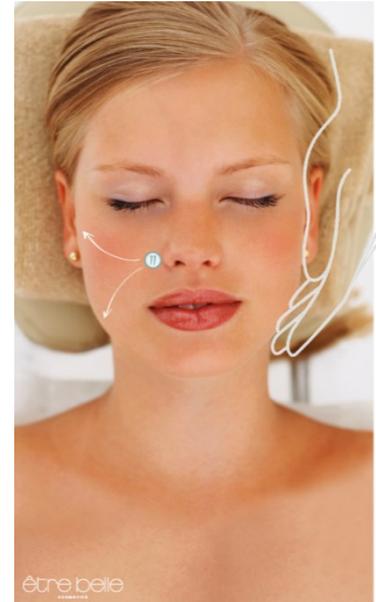

## YouthQi Rejuvenation Massage

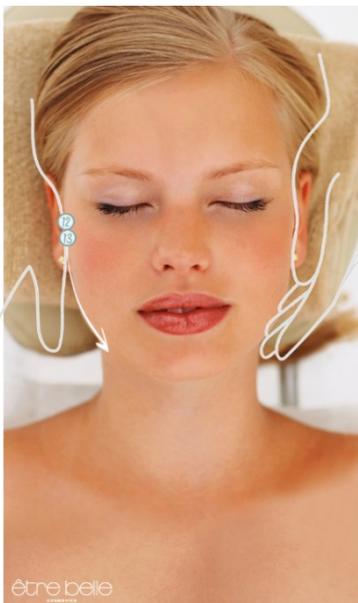

Gently stroke the back of the neck from shoulders to hairline.  
Repeat 3 times.  
Place the head in your right hand.

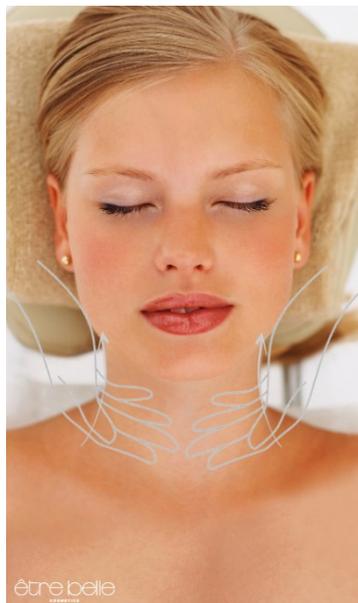

Activate pressure point 8 with your thumb tips and stroke toward the chin line.  
Activate pressure point 9 with your middle finger and stroke toward the cheek.  
Activate pressure point 10 with your thumb tip and stroke toward the ear.

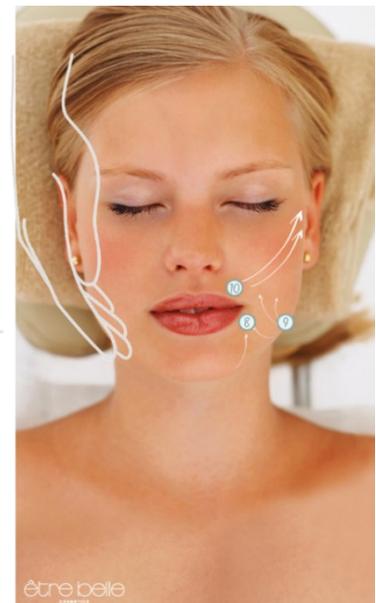

Activate pressure point 11 with the tip of your thumb.  
Stroke with the tip of your thumb towards the chin line and then towards the ear

With your thumb, gently press along pressure points 12 + 13 from the ear, stroking the jawline and then the neckline.

Gently stroke the back of the neck from shoulders to hairline.  
Repeat 3 times.  
Place the head in your right hand.

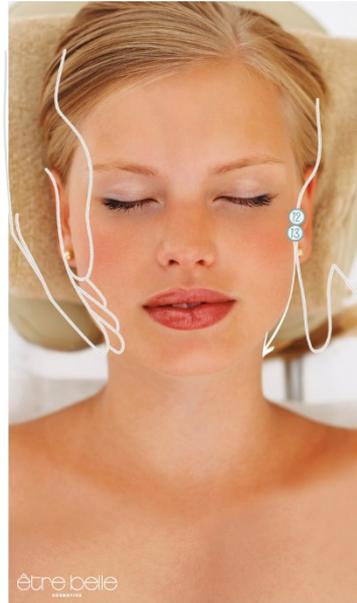

Activate pressure point 8 with your thumb tips and stroke toward the chin line.  
Activate pressure point 9 with your middle finger and stroke toward the cheek.  
Activate pressure point 10 with your thumb tip and stroke toward the ear.

## YouthQi Rejuvenation Massage

Activate pressure point 11 with the tip of your thumb. Stroke with the tip of your thumb towards the chin line and then towards the ear.

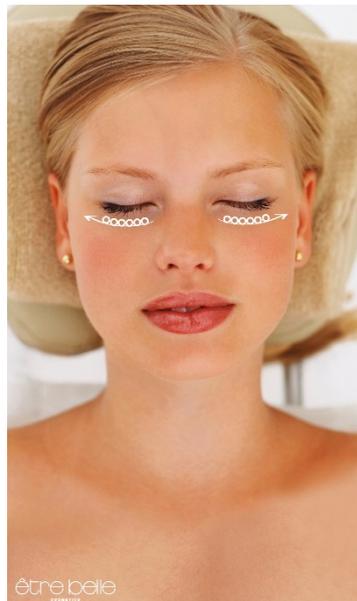

With your thumb, gently press along pressure points 12 + 13 from the ear, stroking the jawline and then the neckline.

Activate pressure point 14 with both index fingers. Stroke over the bridge of the nose to the root of the nose.

Stimulate pressure points 15–16–17 on the cheekbone line with your middle fingers, applying increasing pressure. Then move on to the next point. Repeat below the eyebrows at pressure points 18–19–20.

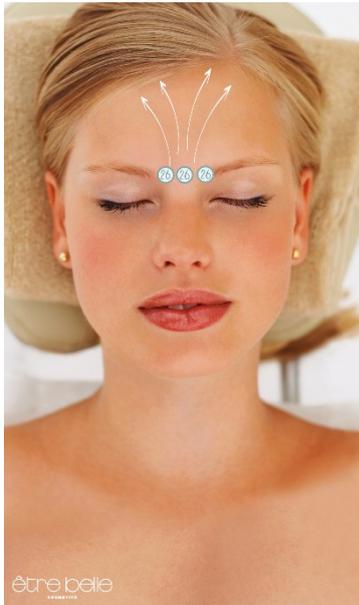

Gently stroke from the corner of the eye to the temple using small circular movements with your index and middle fingers.

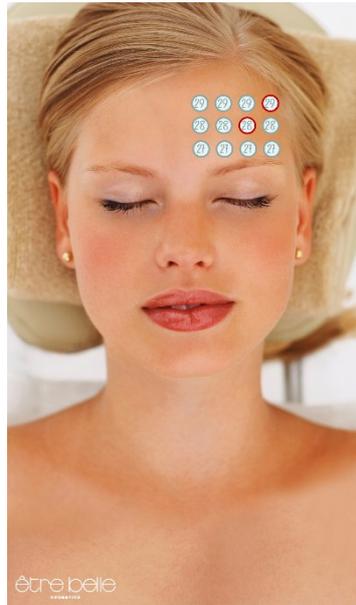

Activate pressure points 21–22–23–24–25 with your middle fingers. Stroke from point to point. Work from the inner corners of the eyes over the eyebrows to the outer corners of the eyes.

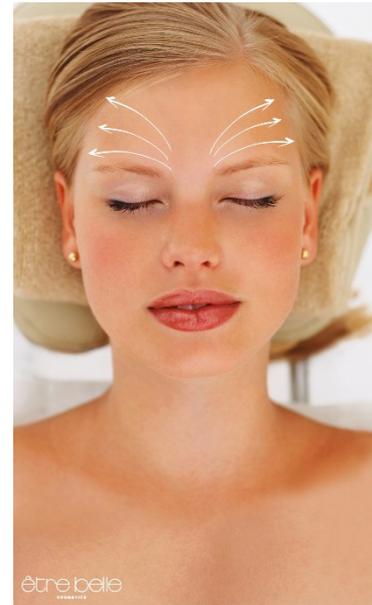

## YouthQi Rejuvenation Massage

Activate pressure points 26 between the eyebrows with the tips of your index, middle, and ring fingers, then stroke out toward the hairline.  
Switch hands.  
Repeat 3 times.

Activate pressure points 27 above the eyebrows with your index, middle, ring, and little fingers.  
Stroke the center of the forehead and activate pressure points 28 there.  
Stroke toward the hairline and activate pressure points 29.

Gently stroke your forehead from the bridge of your nose to the sides of your hairline.  
Repeat 3 times.

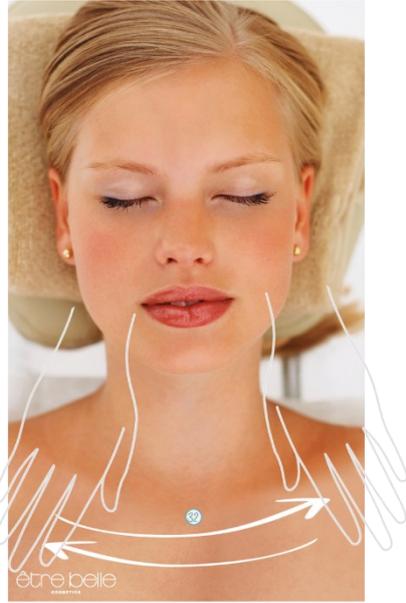

With the thumb ball line, slide over pressure point 2 on the temple to pressure points 12 + 13 in front of the ear to the jaw joint.

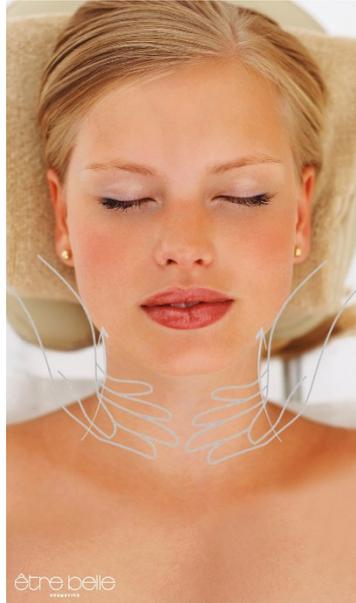

Gently stroke from the jaw joint along the side of the neck, over pressure points 30 + 31, to the collarbones.

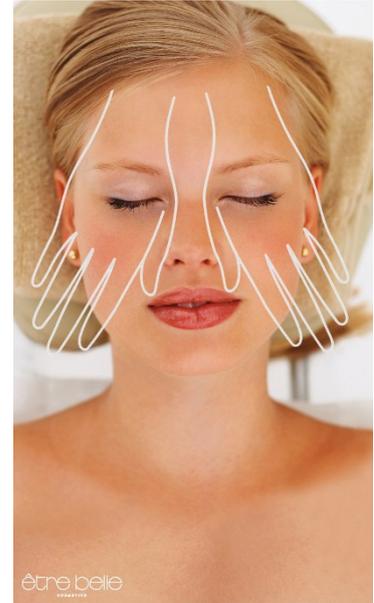

## YouthQi Rejuvenation Massage

Move both hands alternately over the décolleté.  
Also stimulate pressure point 32.

Gently stroke the back of neck from the shoulders to hairline.  
Repeat 3 times.  
Place head in right hand.

Farewell gesture –  
Place both hands over the eyes with your palms facing down.  
Open your hands after a short moment of silence.

# Collagen Vegan

THE ACTIVE INGREDIENT  
CONCEPT

## Important Key and Main Active Ingredients

The sustainable, ethically responsible active ingredient concept that offers maximum effectiveness

A vegan lifestyle stands for respect for people, animals and nature - a lifestyle that consciously avoids animal products and promotes sustainable choices. This philosophy is increasingly reflected in skincare, where vegan cosmetics combine purity, transparency and responsibility.

**Algaktiv® Collage** (*Glycerin (and) Collagen Amino Acids (and) Propanediol (and) Haematococcus Pluvialis-Extract*)

ALGAKTIV® Collage is an innovative ingredient derived from the micro-algae *Haematococcus pluvialis*, which thrives in the pristine, dynamic environment of Iceland. This unique microalgae harnesses the power of sunlight, glacial water and essential minerals to transform its biochemical composition, resulting in a high concentration of astaxanthin, collagen peptides and amino acids. While astaxanthin's powerful antioxidant action can counteract free radical-induced skin ageing, essential amino acids such as hydroxyproline and spermidine are crucial for collagen formation. These bioactive compounds are carefully extracted, purified and blended to create this powerful complex.

ALGAKTIV® Collage stimulates collagen production deep within the skin, regenerating the skin's structure and restoring its firmness, elasticity and fullness. In addition, ALGAKTIV® Collage improves the skin's ability to retain moisture and provides both immediate and long-term hydration, which is essential for a youthful and radiant appearance.

- Counteracts the natural decline in collagen synthesis
- Significantly stimulates the skin's own collagen formation
- Restores structure, elasticity, firmness and volume to the skin
- Intensive anti-oxidative effects delay the natural skin ageing process
- Increases the skin's ability to bind moisture at all cell levels
- Significantly improves the skin's moisture balance by activating aquaporins
- Clinical studies prove significant, rapid and long-lasting anti-ageing effects
- Natural, sustainable origin
- GMO-free, vegan and certified according to Ecocert and COSMOS

## Peptide

Peptides are short chains of amino acids that act as signaling substances in the skin and perform essential functions in cell communication. They can stimulate collagen synthesis, which improves skin firmness and elasticity and reduces fine lines. Studies show that certain peptides, such as palmitoyl pentapeptide-4 and

acetyl hexapeptide-8, specifically target the skin's aging process by strengthening collagen and elastin, thereby increasing skin density. Some peptides also inhibit matrix metalloproteinases (MMPs), enzymes that break down collagen, thus providing lasting protection for the skin's structure.

The effect of peptides on the skin is also enhanced by their ability to promote moisture retention, making the skin's surface appear smoother and plumper. Regular use of peptide-containing skincare products is therefore an effective way to counteract skin aging processes and improve the appearance of the skin.

- Stimulate collagen and elastin production for firmer skin
- Visibly reduce fine lines and wrinkles
- Support moisture retention, improve skin smoothness and plumpness
- Inhibit collagen-degrading enzymes (MMPs) and protect the skin structure
- Promote cell communication for improved skin regeneration
- Offer a targeted anti-aging effect, scientifically proven

*Peptides: ↪ Replexium™, ↪ SYN®-AKE, ↪ SYN®-COLL, ↪ SYN®-Eye u. a.*

## Additional Active Ingredients

### ADIPOLESS™ (*Butylene Glycol (and) Chenopodium Quinoa Seed Extract*)

ADIPOLESS™ ECO is a natural, high-quality extract from organic black quinoa. Use it in contour-enhancing body care products and for targeted care of the facial skin, especially around the eyes. It reduces the capillary network (vascularisation), protects skin elasticity and promotes fat storage (lipogenesis).

- Reduces dark circles (clinically tested)
- Prevents lines and wrinkles
- Prevents body fat storage
- Certified according to COSMOS and Mass Balance RSPO

Product: ➔ *Collagen Vegan Peptide Eye Cream*

### Allantoin (*Allantoin*)

Allantoin is a urea derivative and is extracted from the juice of red beets, black or comfrey roots, horse chestnut bark, maple, wheat germ, and rice.

- Very good skin compatibility
- Anti-inflammatory, mildly antiseptic
- Accelerates the healing process
- Leaves skin feeling smooth and supple – even if it is very rough and chapped

Products: ➔ *Collagen Vegan Cleansing Milk* ➔ *Collagen Vegan Peptide Sheet Mask*

### Almond kernel oil (*Prunus Amygdalus Dulcis (Sweet Almond) Oil*)

Almond kernel oil is rich in essential nutrients that provide intensive skin care. Antioxidants such as vitamins E and A protect against free radicals and promote cell regeneration. B vitamins, including B1, B2, B6, niacin, pantothenic acid, biotin and folic acid, help to build a strong skin barrier and improve moisture retention. Minerals and trace elements such as magnesium, potassium, calcium and zinc promote skin elasticity and strengthen the tissue, while iron and copper stimulate blood circulation. This unique composition soothes the skin, provides long-lasting moisture and ensures a smooth, supple complexion.

- Promotes all cell functions
- Strengthens the skin's barrier function
- Relieves irritation and promotes the skin's own resistance
- Promotes the skin's own repair and regeneration mechanisms

Products: ➔ *Collagen Vegan Peptide Eye Cream*, ➔ *Collagen Vegan Peptide Night Cream*

## Aloe Vera (*Aloe Barbadensis Leaf Juice Powder*)

Aloe vera is a highly versatile plant that originated in North Africa and Arabia. Its medicinal and cosmetic properties have been valued for thousands of years, with it being considered the 'plant of immortality' in ancient Egypt. It is used in skin care and wound healing, thanks to the vitamins, minerals and polysaccharides in its clear gel. These have a moisturising, soothing and regenerating effect, making it particularly suitable for sensitive, dry or irritated skin and providing relief from sunburn. Its versatility makes it one of the most widely used natural active ingredients in modern skin care.

- Excellent skin tolerance
- Relief of skin irritations of any kind
- Supports wound healing
- Strengthens the skin barrier

Product: ➔ *Collagen Vegan Peptide Cream Mask*

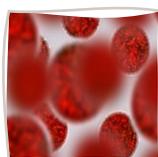

## Arginine (*Arginine / Arginine HCl*)

Arginine is an amino acid that supports both skin regeneration and cell renewal. It promotes blood circulation, which improves the supply of oxygen and nutrients to the skin cells and leads to a fresh, vital complexion. Thanks to its moisturizing properties, arginine helps to strengthen the skin barrier and counteract dryness and feelings of tightness. The skin appears smoother, more elastic, and better protected against external stress factors.

- Promotes the supply of skin cells
- Strengthens the skin's own regeneration processes
- Stabilizes the skin's pH value

Product: ➔ *Collagen Vegan Peptide Mask*

## Astaxanthin (*Astaxanthin*)

Astaxanthin is a carotenoid-based pigment extracted from microalgae such as ➔ *Haematococcus pulchellus*. This natural active ingredient is also found in the food chain of marine animals such as salmon and crustaceans, to which it gives their characteristic red color. It also occurs naturally in dark fruits and vegetables such as berries, cherries and peppers. In skin care, astaxanthin is valued for its outstanding antioxidant properties.

- Neutralizes free radicals and protects the skin from premature aging
- Supports the skin's natural defense against UV radiation
- Promotes collagen production and reduces the appearance of wrinkles

➔ *Component of the active ingredient complex ALGAKTIV® Collage*

## Betaine (*Betaine, Cocamidopropyl Betaine*)

Betaine is a natural moisturizer derived from sugar beets that intensely hydrates the skin while strengthening the skin barrier. It helps balance moisture levels by binding water in the skin cells without overloading the skin. Betaine contributes to balanced moisture levels in all cell layers, as it also promotes protein synthesis for the formation of aquaporins. Betaine has a soothing effect and reduces skin irritation, making it ideal for sensitive skin. It also supports cell regeneration and contributes to a supple, smooth skin feel.

- Intensive moisturizer
- Balances moisture levels in all cell layers
- Improved skin feel
- Reduction of irritation

Product: ➔ *Collagen Vegan Peptide Sheet Mask*

## Grape seed oil (*Vitis Vinifera Seed Oil*)

Grape seed oil is rich in antioxidants such as vitamin E, procyanidins, resveratrol and lecithin. These protect skin cells from oxidative stress and the negative influence of free radicals. Grape seed oil preserves the skin's own lipids and strengthens the skin's lipid barrier, supports cell regeneration and makes the skin feel velvety soft and supple.

- Supports cell regeneration and renewal
- Intensely strengthens the skin's protective barrier
- Promotes a supple, soft complexion

Product: ➔ *Collagen Vegan Peptide Eye Cream*

## Hyaluronic acid (*Sodium Hyaluronate*)

Hyaluronic acid is a component of the extracellular matrix and occurs naturally in the human body. It fulfills many different functions in our body. Due to its chemical properties, it is able to bind between one thousand and four thousand times its own molecular weight in water. The body's own hyaluronic acid is found in the skin, but also in connective tissue, joint fluid, the vitreous body of the eyes, and the brain. In the skin, it not only promotes moisture levels, but is also an important "pioneer" for all migrating cells (e.g., migration of cells from the stratum basale through the stratum granulosum to the stratum corneum).

In the early days of cosmetics, hyaluronic acid was extracted from rooster combs, but today it is produced entirely using biotechnology. This ensures consistent quality and purity. In addition, biotechnology has made it possible to obtain hyaluronic acid in different molecular structures. This enables targeted use in all cell levels of the epidermis.

- Optimization of moisture levels in the skin
- Refinement of lines and wrinkles
- Excellent skin compatibility

## Hyaluronic acid – high molecular weight, long-chain

(Molecular weight 1.5 - 1.8 million daltons)

High-molecular, long-chain hyaluronic acid is a high-quality, biotechnologically produced moisturizer.

Based on the high molecular water storage capacity, this hyaluronic acid provides additional moisture to the skin surface and the upper cell levels of the stratum corneum, thus preventing the skin from drying out due to external influences and lowering the TEWL. The skin is nourished and supported in its protective function.

- Protection of the skin against external influences that lead to dehydration of the skin
- Reduction of TEWL on the skin surface
- Silky-smooth skin feel

Product: ➔ Collagen Vegan Peptide Eye Cream

## Hyaluronic acid - low molecular weight, medium and short-chain

(Molecular weight 8.000 – 50.000 Daltons)

Low-molecular, medium-to-short-chain hyaluronic acid, obtained biotechnologically, directly regulates moisture levels in deeper epidermal cells, stimulates the dermis, and promotes skin firmness. This acid strengthens cell connections down to the stratum granulosum, optimizing moisture levels, reducing TEWL, and strengthening the skin barrier. In the dermis, it stimulates the synthesis of hyaluronic acid and collagen, making the skin more elastic, supple, and smooth. The skin's ability to bind moisture is increased significantly and durably.

- Optimization of the moisture level in all epidermal cell levels
- Reduction of TEWL through the entire epidermis
- Gentle stimulation of the skin's own hyaluronic acid and collagen synthesis

Product: ➔ Collagen Vegan Peptide Day & Night Serum

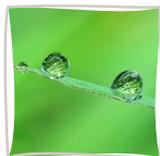

## Hydroxyprolin (Hydroxyprolin)

Hydroxyproline is a non-essential amino acid and a central building block of collagen, the most important structural protein in the skin. It plays a crucial role in the stability and strength of the collagen scaffold because it promotes the formation of hydrogen bonds within the collagen fibers. In the skin, hydroxyproline helps to regenerate and maintain connective tissue, improves elasticity and reduces visible signs of aging such as wrinkles and sagging. It also stimulates collagen synthesis and contributes to skin hydration. It is an essential active ingredient in anti-aging care to strengthen the skin structure in the long term.

- Stimulates the skin's own collagen synthesis
- Optimizes the firmness of the collagen fiber structure

- Promotes an optimal moisture level

➔ Component of the active ingredient complex ALGAKTIV® Collage

**Hydrovitoron® 24** (*Aqua (and) Pentylene Glycol (and) Glycerin (and) Sodium Lactate (and) Lactic Acid (and) Serine (and) Urea (and) Sorbitol (and) Sodium Chloride (and) Allantoin*)

Hydrovitoron® 24 is a highly effective moisturizing active ingredient based on a combination of natural hydrating factors. This ingredient penetrates deep into the skin and ensures long-lasting hydration by moisturizing both the superficial and deeper layers of the skin. By binding water in the skin, the natural moisture content is optimized, resulting in plump and supple skin. In addition, Hydrovitoron® 24 improves the skin barrier and protects against moisture loss, making the skin appear more resilient and healthy.

- Lasting increase in the moisture level of the skin
- Strengthening of the skin barrier
- Plump and supple skin

Product: ➔ Collagen Vegan Peptide Day Cream

**Irish Moss** (*Chondrus Crispus (Carrageenan) Extract*)

Irish moss (*Chondrus crispus*) is a red algae rich in polysaccharides, particularly carrageenan, and has excellent moisturizing properties. It forms a protective film on the skin that binds moisture and strengthens the skin barrier. Irish moss also has anti-inflammatory and soothing properties that help sensitive or irritated skin. The antioxidants in this algae help protect the skin from oxidative stress, contributing to a healthier, more radiant complexion.

- Intensive moisturization
- Strengthens the skin barrier and protects against moisture loss
- Soothing and anti-inflammatory
- Protection against oxidative stress
- Smooth, strengthened, and radiant complexion

Product: ➔ Collagen Vegan Peptide Sheet Mask

**Iris Root Extract** (*Iris Germanica Root Extract*)

Iris root extract is obtained from the roots of the iris (*Iris germanica*), a plant that grows mainly in temperate climates. The roots are gently extracted to preserve valuable active ingredients such as isoflavones, mucilage, and minerals.

Iris root extract has a moisturizing, soothing, and regenerating effect. It supports natural cell regeneration, strengthens the skin barrier, and ensures a supple, smooth complexion. At the same time, the extract has

a balancing effect on combination skin, reduces feelings of tightness, and contributes to an even, radiant complexion.

- Supports skin hydration
- Promotes cell regeneration and smooths the skin
- Reduces feelings of tightness and harmonizes combination skin
- Ensures an even, well-groomed complexion
- Smooth, strengthened, and radiant complexion

Product: ➔ *Collagen Vegan Cleansing Milk*

### Jojoba oil (*Simmondsia Chinensis (Jojoba) Seed Oil*)

Jojoba oil is obtained from the seeds of the jojoba shrub (*Simmondsia chinensis*), which originally comes from the desert regions of North America. It has been valued for centuries by indigenous peoples for its moisturizing and healing properties. The oil is similar in structure to the natural oils in the skin and penetrates deeply into the skin without clogging it.

- Moisturizing
- Barrier-strengthening
- Nourishing and protecting
- Non-comedogenic

Product: ➔ *Collagen Vegan Peptide Day Cream*

### Licorice Root Extract (*Dipotassium Glycyrrhizate, Glycyrrhetic Acid*)

Licorice root extract, obtained from the root of *Glycyrrhiza glabra*, is known for its soothing and anti-inflammatory properties. It contains glycyrrhizin, which can relieve skin irritation and reduce the appearance of redness. The extract also promotes skin lightening by regulating melanin production, thereby reducing pigmentation spots. Its moisturizing properties support the skin barrier and help improve skin elasticity, giving the skin a fresher and healthier overall appearance.

- Anti-inflammatory and antihistamine effect
- Rapid relief from irritation and inflammation
- Strengthens the skin's own defenses

Product: ➔ *Collagen Vegan Cleansing Milk*

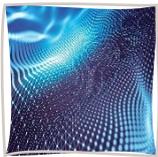

### Macadamia Nut Oil (*Macadamia Ternifolia Seed Oil*)

Macadamia nut oil is rich in palmitoleic acid, a skin-identical fatty acid that has a strong regenerative effect and promotes skin elasticity. It helps restore the lipid barrier by binding moisture and minimizing transepidermal water loss. Its anti-inflammatory and antioxidant

properties soothe dry, sensitive and irritated skin. Macadamia nut oil penetrates deep into the skin without leaving a greasy feeling and promotes cell regeneration, resulting in smoother, firmer skin. It is ideal for mature or dry skin types.

- Richly nourishing without weighing down the skin
- Anti-oxidant and anti-inflammatory effects
- Velvety skin feel

Product: ➔ *Collagen Vegan Peptide Night Cream*

**Matrixyl™ 3000** (*Glycerin (and) Aqua (and) Butylene Glycol (and) Carbomer (and) Polysorbate 20 (and) Palmitoyl Tripeptide-1 (and) Palmitoyl Tetrapeptide-7*)

Matrixyl™ 3000 is a powerful combination of two synthetic peptides. This combination stimulates collagen and elastin production, significantly improving skin firmness and elasticity. The use of Matrixyl™ 3000 helps to reduce the appearance of fine lines and wrinkles and supports skin regeneration. It also optimizes moisture retention, leading to increased skin hydration. By stimulating collagen and elastin production, Matrixyl™ 3000 not only improves skin structure, but also promotes the stability and integrity of the extracellular matrix, resulting in overall healthier and more resilient skin.

- Supports cell activity
- Activates the skin's own repair processes
- The skin gains more density and volume
- Wrinkles are filled in from within and visibly reduced

Product: ➔ *Collagen Vegan Peptide Sheet Mask*

**Meiview™** (*Aqua (and) Propanediol (and) Xanthan Gum (and) Bacillus Ferment (and) Glyceryl Caprylate*)

Meiview™ is an active ingredient from an endophytic microorganism found in the dreamlike landscape of Ses Salines d'Es Trenc on the Spanish Mediterranean island of Mallorca, in symbiosis with one of the most salt-tolerant (halophilic) plants. By improving the connections between cells via plakoglobin (PKG), it strengthens the epidermal integrity. It also increases the formation of collagen I, thus strengthening and tightening the skin around the eyes. Meiview™ also improves microcirculation by reducing vascular permeability through the reduction of vascular endothelial growth factor (VEGF), and it decreases the accumulation of dark red blood products and melanin that are responsible for visible eye bags and dark circles, respectively. Its efficacy has been demonstrated in both men and women.

- Beautifies the eye contour area
- Increases collagen I synthesis, strengthens and tightens the eye contour area
- Lifting droopy eyelids
- Promotes microcirculation in the eye area
- Reduces the accumulation of dark red blood products and melanin in the eye area

- Effectively reduces and prevents dark circles and eye bag

Product: ➔ *Collagen Vegan Peptide Eye Cream*

### Propanediol (*Propanediol*)

Propanediol is a versatile ingredient in skin care that is derived from plant sources, usually corn or sugar cane. It serves as a moisturizing agent that intensively hydrates the skin without weighing it down. Propanediol facilitates the distribution of other ingredients and promotes their penetration. It has a soothing effect on the skin, is well tolerated, and is suitable for sensitive skin types. It is also a more environmentally friendly substitute for petrochemical ingredients such as propylene glycol and contributes to the sustainability of cosmetic products.

- Effective moisturizing
- Penetration booster for all other active ingredients
- Soothing

➔ *Component of the active ingredient complex ALGAKTIV® Collage und Meiview™*

### Replexium™ (*Mannitol (and) Acetyl Tetrapeptide-11 (and) Acetyl-Tetrapeptide-9*)

Replexium™ is a combination of two proven tetrapeptides.

*Acetyl Tetrapeptide-9* acts on dermal skin cells: it boosts two important matrix molecules and stimulates cell division.

*Acetyl Tetrapeptide-11* acts on epidermal skin cells: here, the maturation of keratinocytes is improved.

In addition, positive effects for the dermal-epidermal junction zone have also been shown: the efficiency of two connecting molecules can be significantly increased, thus helping to optimally connect the dermis and epidermis.

- Optimal organization of the extracellular fiber network of the skin
- Improvement of dermal skin density
- Reduction of deep wrinkles on the forehead, around the eyes and nasolabial folds
- Significant visible refinement of the skin's texture

Products: ➔ *Collagen Vegan Peptide Day Cream*, ➔ *Collagen Vegan Peptide Cream Mask*

### Shea Butter (*Butyrospermum Parkii (Shea) Butter*)

A plant-based butter that melts gently onto the skin, leaving it feeling velvety soft. Its broad spectrum of ingredients bind and regulate the skin's own moisture. It has a natural lipid-

replenishing, soothing and protective effect. The skin's barrier function is strengthened. In winter, a gentle, natural protective film prevents the skin from drying out.

- Richly nourishing without weighing down the skin
- Anti-oxidant and anti-inflammatory effects
- Skin feels velvety

Products: ➔ *Collagen Vegan Peptide Eye Cream*, ➔ *Collagen Vegan Peptide Night Cream*

### SkinArch™ (*Palmitoyl Tetrapeptide-72 Amide*)

Skinarch™ ist ein innovativer Wirkstoff auf Peptidbasis, der gezielt die strukturelle Festigkeit und Organisation der Haut unterstützt und wirkt auf die dermale Matrix, um die Haut von innen heraus zu restrukturieren und zu straffen.

Der Wirkmechanismus von Skinarch™ beruht auf der Förderung der Kollagensynthese sowie der korrekten Anordnung von Kollagenfibrillen. Dabei adressiert der Wirkstoff nicht nur einen einzelnen Kollagentyp, sondern beeinflusst die vier wichtigsten Kollagenfamilien, die maßgeblich für Spannkraft, Elastizität und Stabilität der Haut verantwortlich sind. Durch diese ganzheitliche Wirkung wird die Hautarchitektur nachhaltig gestärkt und das Erscheinungsbild sichtbar verbessert.

- Förderung der Kollagenproduktion und -organisation
- Wirkung auf vier zentrale Kollagenfamilien
- Reduktion feiner Linien und Falten
- Straffung und Remodellierung der Gesichtsarchitektur
- Verbesserung der Hauttextur, insbesondere im Wangen- und Augenbereich
- Unterstützung der Hautfestigkeit und Elastizität

Product: ➔ *Collagen Vegan Peptide Moisturising Lotion*

### Sodium PCA (*Sodium Pyrrolidone Carboxylate*)

Sodium PCA is an important component of the NMF and is characterized by its excellent tolerability. It has two modes of action. On the one hand, Sodium PCA supplies the skin cells of the epidermis with extra moisture. On the other hand, Sodium PCA activates the skin's own synthesis of the NMF. The skin's own moisture depots are sustainably replenished and the moisture level is increased. The optimized supply of moisture to the skin supports cell functions. The skin appears revitalized, supple and smooth.

- Provides the skin with moisture
- Promotes NMF synthesis

Product: ➔ *Collagen Vegan Peptide Night Cream*

## Spermidine *(Spermidine, Monoaminopropylputrescin)*

Spermidine is a naturally occurring polyamine present in every cell of the body that plays a key role in cell regeneration. It promotes autophagy, an essential process of cell renewal in which damaged cell components are broken down and recycled. In the skin, spermidine has an antioxidant effect, protects against free radicals and supports the skin barrier function. This slows down skin aging, reduces moisture loss and improves skin texture. The complexion appears smoother, more elastic and more vital.

- Significantly optimizes cell renewal processes
- Regenerates and strengthens the skin from the inside out
- Strengthens the skin's barrier function

➔ Component of the active ingredient complex ALGAKTIV® Collage

## Squalane *(Squalane)*

Squalane is a skin-identical, non-comedogenic lipid component obtained from plant sources, usually olive or wheat germ oil. It strengthens the skin barrier by locking in moisture and reducing transepidermal water loss. Squalane has anti-oxidant and anti-inflammatory effect. It promotes the elasticity of the skin without leaving a greasy feeling. It is particularly suitable for dry, sensitive and mature skin as it has a soothing effect and supports the skin's natural lipid film. Due to its high compatibility, it is included in many skin care products for regeneration and hydration.

- Excellent skin compatibility
- High absorbency
- Leaves the skin feeling pleasantly soft – even if it is very rough and chapped

Product: ➔ Collagen Vegan Peptide Day Cream

## SYN®-AKE *(Dipeptide Diaminobutyroyl Benzylamide Diacetate (and) Glycerin (and) Aqua)*

SYN®-AKE is a synthetic peptide that mimics the effect of the venom of the temple viper. It acts as an innovative anti-aging active ingredient that inhibits muscle contractions in the skin, thereby reducing expression lines. By relaxing the facial muscles, SYN®-AKE ensures a smoother and firmer skin surface. It also has a moisturizing effect that hydrates the skin and further improves the appearance of lines and wrinkles.

- Inhibition of muscle contractions
- Relaxation of facial muscles
- Reduction of expression lines and wrinkles
- Smoothing and firming
- Youthful, revitalized radiance

Products: ➔ Collagen Vegan Peptide Day & Night Serum, ➔ Collagen Vegan Peptide Night Cream

### SYN<sup>®</sup>-COLL (*Palmitoyl Tripeptide-5 (and) Glycerin (and) Aqua*)

SYN<sup>®</sup>-COLL is a bioactive peptide that stimulates collagen synthesis in the skin, thereby improving skin structure. It visibly reduces wrinkles and fine lines and increases skin firmness. SYN<sup>®</sup>-Coll's deep smoothing effect promotes skin elasticity and hydration. It is particularly effective in anti-aging formulations as it supports skin rejuvenation and promotes a firmer, more youthful skin appearance.

- Activation of collagen synthesis
- Slowing of the skin aging process
- Reduction of visible signs of photoaging
- Tightened, sculpted appearance and refined appearance of pores
- Improvement of firmness, elasticity, texture and smoothness of the skin.
- For smoother and younger-looking skin

Products: ➔ *Collagen Vegan Peptide Day & Night Serum*, ➔ *Collagen Vegan Peptide Night Cream*

### SYN<sup>®</sup>-EYE (*Palmitoyl Tripeptide-5, Panthenol, Natriumhyaluronat, Algen (Dunaliella Salina) Extrakt*)

SYN-EYE<sup>®</sup> combines the latest SYN<sup>®</sup> peptide technology with superior skin care bioactives in a multifunctional eye care formula. It helps improve skin structure and smoothes the delicate eye area. Within a very short time (on average in 7 days), SYN-EYE<sup>®</sup> visibly reduces the appearance of lines and wrinkles around the eyes. In addition, a lighter, more even skin color was observed in the area of dark circles (after an average of 14 days).

- Reduces the appearance of lines and wrinkles around the eye
- Reduces the appearance of dark circles
- Improves the appearance of the skin and smoothes the delicate skin around the eye

Product: ➔ *Collagen Vegan Peptide Eye Cream*

### Triactigen (*Mannitol (and) Cyclodextrin (and) Yeast Extract (and) Disodium Succinate (and) Disodium EDTA (and) Disodium Phosphate (and) Potassium Phosphate*)

Triactigen is a revitalizing yeast extract. It stimulates cell metabolism by optimizing oxygen uptake. It has soothing and anti-inflammatory properties and can have a stimulating effect on fibroblasts. Triactigen supports the skin's own moisture-binding capacity and aids in the repair of damage to the fiber structure. The tissue gains more tone and elasticity, and the skin appears rejuvenated, smooth, and even..

- Optimizes oxygen uptake and thus promotes cell metabolism
- Increases the skin's own moisture retention capacity
- Reduces inflammation and soothes the skin
- Strengthens the skin's own repair mechanisms
- Increases elasticity, resilience, and vitality

Product: ➔ *Collagen Vegan Peptide Tag & Nacht Serum*

### Pro-Vitamin B5 (*D-Panthenol*)

D-panthenol is a water-soluble vitamin of the B complex. It is ideally suited for the care of brittle, chapped and environmentally stressed skin. Due to its molecular structure, it is able to penetrate very well into the skin. It has a very good moisture-retaining capacity and thus ensures firmer, tighter skin. Provitamin B5 supports and accelerates skin regeneration, has an anti-inflammatory effect and soothes irritated skin.

- Relief of irritated skin conditions, including skin stressed by light and sunburn
- Promotion of the skin's own repair processes
- Strengthening of the moisture balance
- Stimulates an even pigment formation
- In combination with vitamin A, it improves cornification disorders of the skin

Products: ➔ *Collagen Vegan Cleansing Milk*, ➔ *Collagen Vegan Peptide Eye Cream*, ➔ *Collagen Vegan Peptide Night Cream*, ➔ *Collagen Vegan Peptide Sheet Mask*

### Vitamin B3 (*Niacin, Niacinamide*)

Vitamin B3, also known as niacin or niacinamide, is a water-soluble vitamin found in foods such as meat, fish, whole grains and legumes. In traditional medicine, it has been used to support metabolism and skin health. In skin care, vitamin B3 has anti-inflammatory properties, promotes the skin barrier and improves skin elasticity. It reduces redness, pigmentation and skin irregularities and helps protect the skin from environmental stress. Vitamin B3 is particularly beneficial for treating acne, rosacea and hyperpigmentation and contributes to an even, radiant complexion. Niacin also offers valuable properties for intensive pre-aging and for skin that has become demanding.

- Activates microcirculation
- Stimulates the skin's own protein synthesis
- Promotes cell differentiation
- Strengthens the skin's barrier function

Products: ➔ *Collagen Vegan Peptide Moisturising Lotion*, ➔ *Collagen Vegan Peptide Eye Cream*

### Vitamin E (*Tocopherol*)

Vitamin E is a powerful antioxidant that protects the skin from oxidative stress and damage caused by free radicals. It stabilizes cell membranes, improves the skin barrier and reduces transepidermal water loss (TEWL), which helps to maintain skin moisture. In addition, vitamin E promotes wound healing and reduces inflammatory processes, thereby alleviating redness and irritation. Thanks to its regenerative properties, it helps to delay skin aging by preventing wrinkles and improving skin smoothness and elasticity.

- Free radical scavenger
- Helps maintain a healthy moisture balance in the skin
- Leaves skin feeling supple
